

April 19th, 1911.

Mr. James F. Dawson,

% Olmsted Bros.,

Brookline, Mass.

Dear Dawson,-

I am sending under separate cover the photo prints of Gill's houses, as far as I could obtain them. I had to look over his ^{whole} ~~old~~ list and select, which I have done with an idea of the ^{new} ~~fitting~~ for the Isle of Pines as near as possible. However, Mr. Gill had no photographs of some of his smallest houses, which ^{were} ~~was~~ just what we wanted. He was not willing that we should have any plans and he asked particularly that you regard these prints as a personal gift to you, ^{printed at our expense however} and that you will protect his interest in the matter so that some other architect won't simply use Gill's ideas to his own advantage.

Mr. Gill is going East soon on a trip and would be very glad indeed if we cared to arrange for his meeting Mr. Harper if there ^{were} ~~was~~ any chance of his getting an opportunity for some work in the Isle of Pines. Of course, he does not wish to go after it himself, but would be very glad to have us recommend him.

Mr. Olmsted will be here Friday night, the 21st, also

Mr. Goodhue.

Mr. Watson has been up to Los Angeles and could not find any of the Eucalypts in flats, which we needed as a result chiefly of shortage in stock sent us, due to accidents etc. This will make it impossible for us to complete all the planting; which will be done as far as we can in a few days.

Very truly yours,
