FOLDERS

December 14, 1911.

My dear Mr. Collier:-

I am in receipt of your letter of the 9th. When I receive the voucher from the auditor I will endorse it and send it to Mr. Richardson as per your request.

A telegram from President Felsey informs me that the Executive Committee has approved of our arrangement. I am very much gratified at the outcome.

I shall bring up to Washington with me about January first or second a considerable budget of matters for you to consider and I hope to be able to set aside a day or two for that purpose about that time.

You spoke of asking Mr. Lummis to come on to Washington to prepare the first article giving out the announcement of these plans. It is still a little difficult for Mr. Lummis to get about owing to the trouble with his eyes. He could go if you deem it necessary though he would have to bring his small boy, Quimu, to help him about for he is compelled to wear his eyes under a bandage. What would you think of preparing just the headings that are to be touched upon in such an article and send it on to Lummis for the literary treatment. He grasps very quickly what everyone wants and I imagine he could get it out as well at home and with somewhat less difficulty and it could be sent on for your approval and publication. If you will

kindly give me your views on this question I will
communicate with Mr. Lummis.

Very cordially yours,

Mr. D. C. Collier,
The Shoreham,
Washington, D. C.
