October
Two
1914.

My dear Mr. Holmes:

Our first car of material is through and we shall begin unloading it tomorrow morning. As far as we can tell, everything is in fine shape.

Would you kindly send me the dimensions of the bases for El Castillo and the Palace at Uxmal. I should like to know if you consider the height at which you have them mounted is what you would recommend for us here.

I hope that the second car is bringing the balance of the Central American material; that is what I can now use to best advantage.

With sincere regards, I am as always,

Very cordially yours,

Mr. Wm. H. Holmes,
National Museum,
Washington, D.C.

ELH-R.
