Seven  
1914

My dear Mr. Holmes:

Since writing you earlier in the day I have your letter of the 2nd inst.

It will be a considerable saving if the remaining material can come in a car lot; freight runs up very high when it comes to straight hundred pound rates. The Security Storage Company that packed the car for you has a customer in San Diego that would like to take advantage of a partial carload. I wish you would call them up at once and see if what they have in mind would, with what you now have ready, make up a car. If so, I should like very much to have it started at once.

What I particularly want in a hurry is all of the rest of the Central American tablets and models. There came in the last car only the Palenque Cross and one box containing a part of the base of the House of the Governor. I wish we might have soon the whole of the House of the Governor, the Castillo, the Feathered Serpent Portal, the Tikal Woodcarving, the Tablets from the Palenque Piers, the Palenque Tablet and the Sun Mask and the large Tablet of Inscriptions.

Aside from this, I see no reason why we could not safely wait until the first of November for the rest of the material. Wire me on receipt of this and after conference with the Security Storage Company, as to what you can do.

As always,

Very cordially yours,

Mr. Wm. H. Holmes,  
National Museum  
Washington
