

January 31, 1911.

Mr. John McLaren,  
Supt. Golden Gate Park,  
San Francisco, Calif.

Dear Mr. McLaren:-

We are starting our propagating for the plants we are to use at the Exposition and would appreciate it if you would permit us to get cuttings and seed, of various plants, growing in Golden Gate Park. If so, we will send a man to San Francisco to get cuttings in as large a quantity and from such plants as you may direct.

Awaiting you reply, we remain,

Very truly yours,

Olmsted Brothers,

By 

List of plants to get  
cuttings and seed of  
in Golden Gate Park.

- Juniperus prostrata-----
