READ BY

20th April, 1911.

Mr. H. H. Blossom,  
Timkin Building, San Diego, California.

Dear Blossom:

Your letters of April 11th and 14th  
received.

Asparagus plumosa.

Yes, we want a large quantity and if Donald  
has the seed please have him plant and propagate as  
many as possible, up to 7000.

Seaforthia elegans.

Yes, I think it would be all right to put  
these plants in the lath house.

Yours truly,  
*James T. Dawson*
