Dear Mr. Blosson;

Many thanks for your letters of 26th 28th & 29th as to I have wired Mr. Wangerheim as to site question & sent a copy to Mr. Marston by mail. Mr. Dawson can get a copy from letter. It was 234 words!

I think the dam could be moved another peg down the Spanish canyon with a driveway cut would thus serve to make the area N. of this canyon available for expanding our plan. I feel very doubtful about that big Brazil bldg & all those others & Col Collier

John C. Olmsted
Yours very truly

claims to have secured, but it don't cost much to expand our plan further. The trouble is to find the money for roads sewers water pipes conduits & all that. I am sending Mr. Dawson copy of my letter to Mr. Marston so you can book up & I need not say much more.

Personally I am in favor of the Stadium E. of High School. It seems to me a ^{much} more justifiable expenditure of park money than the Auditorium. But nothing should be said as to this until the middle of the Park site has been turned down.
