Eccentric Leader Seen at Best While Giving Exposition Programs,

ATTITUDES CHANGE FAST

Offerings of Players Please Audience, Strains Catchy And Swinging.

Guiseppe Creatore, leader of the famous band now playing a two weeks engagement at the Panama-California Exposition, was in fine fettle vesterday, afternoon and gave

fettle vesterday afternoon and gave his great audience as fine a program of physical culture exercises as might be expected from a class representing the German Turneverein.

Creatore has been out of condition for some time, but in a number yesterday he threatened to maul several musicians who evidently had severe cases of spring fever and were mentally composing "pomes."

With his long black hair waving in the breeze, his baton extended in a threatening posture, his head keepings staccato time to the music. his feet moving, back and forth, it looked for a minute as though an exhibition of the latest tanco or hesitation was being attempted.

Pathetique" Op. 13 (Beethoven).
"Tamnhauser" (Wagner).

How Thin People

Increase in Weight Ten Pound

or More.

A Physician's Advice.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, depite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood, as they are when the powers of nutrition are normal. Instead of setting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to

victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of setting into the blood all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals it mixes with the food and turns the sugarn and starches into rich ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is soid by all good druggists everywhere and cover package contains a guarantee of weight increase or money back. Caution—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh lock.

Band Concert in Rain Novel Treat Enjoyed By Exposition Visitors

Autoists Line Fair Building as Creatore's Men Play Under Awning.

The novelty of hearing a band concert while seated in automobiles, with the rain pattering down, was enjoyed by many San Diegans last night at

many San Diegans last night at the Exposition.

Just as Creatore and his rand were to begin the evening concert at 7:30 o'clock at the music pavillon the rain started to fall. A change in arrangements was hassily made and the band went to the steps of the Sacramento Valley building and played beneath an awning. Automobiles lined up in fronz of the building and their passengers thoroughly enjoyed the novelty of hearing a concert under unusual conditions.

conditions.

While the rain kept a great
number away, those who were
on hand were enthusiastic and
every number on the program
was well applauded.
